AMBS SOLUTIONS · DESIGN REVIEW

Tax Professionals
Twelve website concepts

Each concept is a working homepage built from your real services, people and contact details, with its own look and motion. This pack shows the first screen of each on a laptop, a tablet and a phone. The live versions, with their motion, are at https://taxprofessionals.vercel.app, where you can shortlist designs, compare them side by side and send us your preferred one.

All concepts use your logo, brand blue and green, and photos from your current website. The abstract 3D artwork was made for these concepts in your brand colours. Dates shown are general Inland Revenue dates. The motion is best seen live on a laptop.

Recommended: 02 Tax Year, 03 Manukau Road, 05 Studio, 06 Private Client, 12 Story.

01

Partners

People-led · Portrait gallery · Highly animated

Ivory and deep blue editorial with a high-contrast Bodoni display. The team photo opens from a small card into a deep-blue field, then the partners glide past in a pinned horizontal portrait gallery at three parallax depths.

02

Tax Year

Interactive · Year in motion · Interactive · ★ Recommended

Precise, product-like and built around the NZ tax year. The hero counts down live to your next Inland Revenue date on split-flap digits, over a duotone photo that wipes open. Then the whole year, April to March, slides past sideways as you scroll, with this month marked.

Why we recommend it: Useful every month: the live 'next due date' and month-by-month plan give clients a reason to come back.

03

Manukau Road

Local · 3D map flythrough · Highly animated · ★ Recommended

A warm, daylight illustrated map of Epsom draws itself in behind the headline, then tilts into 3D and glides up Manukau Road to number 620, where the office pin rises and the map opens into the real team photo.

Why we recommend it: Human and local, and true to a community practice on Manukau Road since 1998.

04

Structures

Specialist · 3D structures · Interactive

Leads with property investors. A calm low-poly 3D scene of you, a trust, a company and your properties floats in deep blue space; scroll and it pins, moving through four investor situations as the green light-lines reconnect.

05

Studio

Cinematic · Cinematic · Photo-led · Highly animated · ★ Recommended

Shot like a film. Letterbox bars slide open on the real office photos and the headline rises line by line; scroll and the slideshow zooms out into a framed card beside the firm's own words. The services play as a pinned scene, the five promises as letterboxed title cards, and the team rolls past as film credits.
Why we recommend it: The photo-led option: it will carry the real office and team pictures best, in the way clients expect from a modern firm.

06

Private Client

Premium · Premium · Liquid luxury · Highly animated · ★ Recommended

Slow and silky, in deep blue and cream. The meeting photo moves like liquid under your cursor, the headline rises line by line inside a drawn cream frame, and Ranjana's portrait holds still while her credentials and the firm's own words pass in large serif.

Why we recommend it: Premium and calm, and it uses the sticky stacked cards and slow folds you favour.

07

Toolkit

Small business · Motion bento · Interactive

Built for small business owners. The headline springs in letter by letter beside the isometric brand tiles; scroll and the page pins while seven service tiles spring out of an isometric pile into a bento grid. Three questions make the right tiles jump to the front and fill in the enquiry.

08

Kinetic

Type · Bold · Kinetic type · Highly animated

Type is the hero. The headline falls in letter by letter and stacks; scroll and the word TAX grows until its T fills the screen and opens onto the office team in blue and green. Velocity marquees, a pinned service reel, a hover-portrait team list and a flipping tax-date board follow.

09

Packages

Product-grade · Glass packages · Interactive

Built on the firm's own promise of fixed fees. A live gradient mesh in the brand blues and greens flows behind glass cards and bends toward your cursor; the three real packages fly in from depth, tilt as you hover and flip over to compare every inclusion.

10

Capability

Corporate · Corporate · Data room · Interactive

A dark, precise data room for companies, trusts and employers. The 4K brand cubes drift with your cursor behind a live At a glance panel; the tax year then pins and draws itself, with the real IRD dates and today marked.

11

Reveal

Cinematic · Opening panels · Highly animated

Theatre for a tax firm. Thick blue and green brand slabs, lit like a stage, swing open on load to reveal the headline over the 4K brand render; then a pinned curtain call opens on the team, the four services and the award in turn.

12

Story

Type · Scroll story · Big type · Highly animated · ★ Recommended

The firm's story as a long-form magazine piece. A cover headline slides in line by line as the team photo opens out of a brand-blue square; each chapter opens with a giant number while the photo beside it wipes to the next; a sideways timeline runs from 1998 to the 2019 award to today.

Why we recommend it: The most memorable of the set: the firm's story since 1998 told in big type that lights up as you scroll, beside the real photos.
